I support XM Satellite Radio's first amendment rights afforded them by the Constitution of the United States of America. I benefit daily from XM's commercial free programming and find it a vital part of my life. XM is something I pay for with my own money and I find it appalling that the National Association of Broadcasters think they have a right to tell me what I can and cannot pay for. It's almost a form of censorship which then would be a violation of my Constitutional rights which I simply will not stand for. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.

Respectfully,

Jared Sims
